Description:

The RISAConnection Quick Start Course is 1.5-hours of on-demand training that focuses on the analysis and design of steel connections. The instructor will provide a hands-on introduction to the basic features and functionality of RISAConnection that utilizes expert instruction and example models to familiarize users with the user interface as well as the main workflow of modeling, loading, designing and documenting a connection in RISAConnection. Additional tips and tricks will be provided for integration with RISA-3D.

Learning Type: Virtual (On-Demand)

Price: $125

Topics Covered:

Navigating the Interface
- Project Explorer
- 2D & 3D views
- Properties panel

Creating Connections
- Simple shear tab example
- Moment with HSS example

Results
- Solving
- Navigating the reports
- Design checks & references
- Exporting a DXF

Integration with RISA-3D
- Defining connection types
- Assigning proper types to members
- Load combinations
- Round-tripping

Benefits of Attending:

- Self-Paced, On-Demand Learning
- Introduction to Basic Features
- Integrate with RISA-3D
- Review In-Depth Connections

What You Will Learn

Navigating the Interface

Modeling Connections

Basics of Integrating with RISA-3D

Interpreting Connection Results
