

# RISAFloor

## QUICK START

### Description:

The On-Demand RISAFloor Quick Start Course is a 4-hour hands-on introduction to the basic features and functionality of RISAFloor that utilizes expert instruction and example models to familiarize users with the user interface as well as the main workflow of modeling, loading, analyzing, designing and documenting a multistory, multi-material building model. This course is aimed at users who are new to RISAFloor. Work at your own pace to follow an instructor to learn the tips, tricks, and best practices for modeling a full building from the ground up and streamline your building design workflow.

Learning Type: Virtual (On-Demand)

Price: \$300

### Topics Covered:

#### General Modeling

- Navigating the program interface
- Starting new projects
- Defining grids and settings
- Drawing structural elements (columns, walls, beams, decking)
- Applying various loads to the model

#### Advanced Modeling

- Inserting and modifying floors
- Performing test runs
- Duplicating floors
- Designing penthouses
- Managing columns

#### Results

- Solving the model
- Interpreting results
- Integrating RISAFloor QS with RISA-3D for detailed analysis:
- Adding bracing
- Applying load combinations
- Reviewing wall and member design results

## Benefits of Attending:

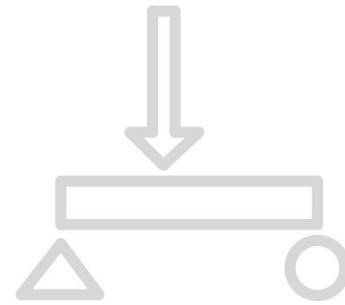

- Self-Paced, On-Demand Learning
- "Learn by Doing" with Real World Models
- Faster Mastery of RISAFloor Workflows
- Jumpstart your learning

## What You Will Learn

---

**Refine Foundational Concepts**

**Advanced Workflows**

**Basics of Integrating with RISA-3D**

**Interpreting Results**
